TransportNI has considered the correspondence in the above correspondence and responds as follows:

**1. I would just like to voice my overwhelming support for the proposed York Street Interchange. This project is LONG overdue as this is quite easily the busiest and worst junction (for traffic flow) in Northern Ireland. The sooner the project starts, the better!**

- a) TransportNI notes your email of 24 February 2015 and welcomes your strong support of the Proposed Scheme.

Construction Programme

- b) It is anticipated that the scheme would require a minimum period of just over 3 years (38 months) to construct, subject to the advance completion of service diversion works or advance placement of service diversion Orders with the relevant utility providers. Based on the current programme, TransportNI expects construction works to commence in Autumn 2017, subject to successful progression of the Statutory Orders procedures (including Public Inquiry), availability of funding, and detailed economic appraisal. On this basis, the scheme could be completed by late 2020.

- c) We would thank-you once again for your interest in this scheme.
